

## Winter 2012 Part-time (Day School) Registration Schedule

The information below provides the start date and location for part-time registration by course division. Students must first go to their program office to see if a part-time seat is available. Please note that oversubscribed programs seldom offer part-time seats.

\* **General Education part-time courses only** – students who wish to take their General Education Elective course out of sequence or have either dropped or failed their General Education Elective course cannot use the web registration system. To view a list of available part-time Gen Ed courses and to register for these courses, students must go to the Office of the Registrar, Room E1012.

Many full-time students take extra courses in addition to their full-time enrolment. Students who take extra courses are required to pay additional fees and must enroll in those courses via the part-time registration process.

School	Start Date	Office Location
