

General Education Electives

Graduation Requirements for Degree Students
from the School of Language & Liberal Studies

Why General Education?

General Education contributes to the growth of students who are conscious of the complexity of the human experience; who are able to establish meaning through this awareness; and, who help improve the society in which they live.

General Education strengthens students' problem solving, communication, and critical analysis skills while exposing them to topics outside of their main field of study & students from other areas.
