

St. Thomas Guide

FALL 2021

fanshawec.ca/stthomas

WHY LEARN LOCALLY?

There are many benefits to studying at a smaller campus, including:

- ▶ Programs designed to prepare you for high-demand careers in our community
- ▶ Small classes with easier access to faculty experts and student supports
- ▶ Strong partnerships with regional employers

IN THIS ISSUE:

- 4** Post-secondary programs
- 6** Continuing education programs
- 8** Professional development courses
- 14** General interest courses

POST-SECONDARY PROGRAMS

Our programs provide exceptional learning opportunities, student support and industry connections to prepare you for career success.

Child and Youth Care CYW2S

Accelerated Advanced Diploma (90 weeks)

Apply now for September

Make a difference in the lives of at-risk children and teens. Learn theory in-class and practice at your work placement. Real experience helps you get a job faster. Child & Youth Care is offered in accelerated format.

Early Childhood Education ECE1S

Diploma (60 weeks) | *Apply now for September*

Your love for child development can translate into a rewarding career of Early Childhood Education. You'll be ready to help shape the minds of our next generation!

Also available part-time. Funding available for those who qualify.

Mechanical Engineering

Technician – CNC/CAM MNC2S

Diploma (45 in-class & 30 Co-op weeks)

Apply now for September

This program improves your employability in the in-demand industry of computerized machining. This program includes an overview of computer applications, numerical control technology and computer aided design in 2D and 3D modes.

Mechanical Engineering

Technician – Industrial

Maintenance MIM3S

Diploma (48 weeks)

Apply now for September

Modern machines need constant maintenance to run efficiently. This program prepares you to be the key person in charge of making this happen. Graduates exempt from Level 1 Apprentice Theory.

Mechanical Technician –

Tool & Die TD12S

Diploma (45 in-class & 30 Co-op weeks)

Apply now for September

This co-op program gives you theory in the classroom and application in the co-op. Graduates will be prepared to work in modern tooling workshops by the end of the program. Graduates exempt from Level 1 Apprentice Theory.

APPLYING TO PSW?

Attend our FREE Pre-PSW upgrading program to get a head start on developing skills for success. **Contact us for more details.**

Personal Support Worker PSW6S

Certificate (30 weeks)

Classes start in May and September. Apply now!

A compassionate heart is what is needed in this hands-on program. Learn how to care for people with special needs and the elderly while you start your path to a career working in home care, long-term care homes and hospitals.

Personal Support Worker – Weekends PSW9S

Certificate (44 weeks)

Classes start in January 2022. Apply now!

Now offered in a weekend format for your convenience, this program will prepare you to care for people with special needs and the elderly in home care, long-term care homes and hospital settings.

Power Engineering Techniques – 4th Class PEQ2S

Certificate (45 weeks)

Apply now for September

This program provides a thorough introduction to all aspects of the work of Power Engineers at the 4th class level, offering both theory and practical learning opportunities. Students will be exposed to a variety of power generating equipment in use, in both private and public sector settings.

Pre-Health Sciences Pathway to Advanced Diplomas and Degrees PHS2S

Certificate (30 weeks)

Apply now for September

If you want to work in health care, but are unsure what area, this program is for you. Pre-Health gives you the foundation to explore different areas, giving you the knowledge to make an informed judgment on your next program of study.

Renewable Energies Technician RET3S

Diploma (60 in-class & 30 Co-op weeks)

Apply now for September

Renewable energies is one of the fastest growing industries. This program provides you with knowledge on solar energy, wind turbines, bio-mass energies, and geothermal systems to get you to work as soon as you graduate.

Welding Techniques WTQ1S

Certificate (30 weeks)

Classes start in May and September. Apply now!

Learn a wide range of welding skills in both the classroom and in the real world. This hands-on certificate with a work placement prepares you to write your welding tickets and the ability to begin working in the field.

For more information or to apply, visit fanshawec.ca/stthomas. Ask us about funding assistance.

CONTINUING EDUCATION

Work towards a credential at your own pace. Take the entire series of courses or just the one you want.

American Sign Language **ASL1**

The program will be of interest to those who wish to develop sign language concepts and use basic American Sign Language skills. Students will learn abstract concepts dealing with the environment outside of the classroom. This program will give graduates sufficient skills to enable them to communicate, at a basic level, with members of the non-hearing community in a variety of situations.

Note: Classes will be delivered via live video conferencing, with the opportunity to interact with the instructor and other students to practice skills. Web camera, speakers and microphone are required on your device.

American Sign Language 101	COMM-1084-40ST	O	Oct 21 - Dec 23	Thu 6 - 9 p.m.	\$207.10	✓
American Sign Language 102	COMM-1085-40ST	O	Oct 19 - Dec 21	Tue 6 - 9 p.m.	\$207.10	✓

Child & Youth Mental Health **NEW!**

BSCI-3056-40ST \$207.10

Oct 5 - Dec 7 | Tue, 6 - 9 p.m. | Online ✓

Mental Health for children and teens has never been more complicated and more of a concern than it is today. Professionals, parents and caregivers often feel overwhelmed and unprepared for the struggles that children and youth are facing. This online course will review mental health challenges that many children experience and the strategies to effectively manage the signs and symptoms of mental illness. This course will examine the short-term and long-term impacts of the COVID pandemic on child social, emotional and physical development as well as the impact on service delivery. Suicide risk assessment and suicide intervention skills will be discussed. Students will also explore techniques for building resiliency, increasing distress tolerance, effective advocating, self-care and providing family support.

Welding Basics **NEW!**

WELD-1068-01ST \$277.10

Sep 24 - Nov 5 | Fri, 6 - 10 p.m. | In-class ✓

This hands on interactive course covers welding safety, torch cutting, grinding, brazing, gas metal arc welding (GMAW), shielded metal arc welding (SMAW) and oxy fuel welding. This course is designed for people who would like to learn basic welding and welding career requirements and opportunities. Students will be given opportunity to practice welding, cutting, and bending of coupon plates for CWB weld testing using GMAW and SMAW processes. CSA approved work boots are mandatory.

Note: Physical distancing will be strictly followed. PPE required.
