

# Motorcycle Safety Online

To Register Click <http://1123.learning-cart.com/>

## ***Who should take this course?***

Anyone thinking about getting a motorcycle license for the first time.  
Anyone have just acquired an M2 licence.  
Experienced car drivers contemplating getting a motorcycle.  
Riders who obtained their M-class license some years ago but in need of a refresher.

## ***What is it designed to achieve?***

This course has been built from the ground up with one objective, to help keep you out of harms way on the road, on your motorbike. Riding a motorcycle requires constant attention to safe riding techniques and practices. This course trains you on those techniques and practices using easy and interactive methods.!

## ***What does it contain?***

Introduction to motorcycling  
Taking a motorcycle safety course  
Motorcycle controls, features & accessories  
Riding gear – it's between you and the road  
Getting ready for the ride  
Situational riding skills  
Safe riding techniques  
Lane positioning  
Decision-making and situational awareness

The videos in the course were all taken on real roads using high-end motorcycles ridden by professional riders in all kinds of weather. Everything looks, and is realistic.

## ***What do you get at the end?***

Participants will earn and can print a graduation certificate upon successful completion of all course modules, quizzes and final exam. A passing grade of 80% is required but if you don't get it on your first attempt you can repeat any part of the course as many times as you need to fully understand every concept covered in the training. You may take the final exam up to three times although most pass in their first or second attempt.

## ***How does it work?***

All you need is a PC or a MAC and a good Internet connection. The course takes about 3 hours but can be completed in one or as many sessions as you need.  
If you suspend a session, or lose power, or just quit for whatever reason, next time you log on you begin at the module or quiz where you left off.

We actively encourage anyone interested in riding a motorcycle for sport or transportation to enroll in this training to obtain essential safety knowledge and best practices.
