

2011-2012 Graduate Report

Fanshawe College graduates are successful in finding employment within six months of graduating. Fanshawe's KPI Graduate Employment Rate is 86%, which is once again above the provincial average of 84%.

Key Performance Indicators

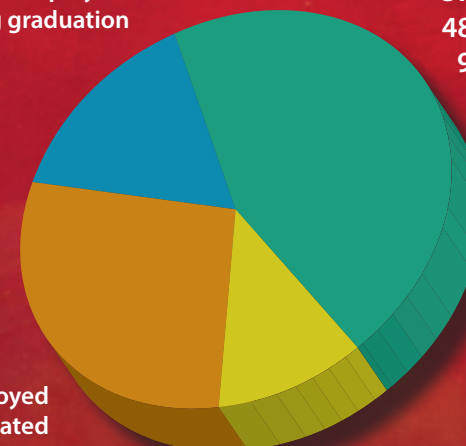

The Key Performance Indicators (KPI), which measure the performance of all Ontario's publicly funded colleges of applied arts and technology, summarizes the employment experience of our 2011/2012 graduates. This includes graduates from August and December 2011 and April 2012 who were surveyed approximately six months after graduation. A third-party research firm gathers the data, tabulates it and reports its findings. A major component of KPI is the surveying of college graduates to determine their employment status, earnings, occupation and the relationship of the graduate's occupation to their program of training.
