1. **STANDARD**

A College policy is an optimized position-statement, which is used to comprehensively respond to an existing, new, or emerging risk. Written College policies achieve this outcome through clear, concise statements of purpose, content, characteristics and desired outcomes. The addenda to this standard elaborate these policy elements, describe the format for written College policies and their addenda, and provide a process for policy development and review.

The policy sponsor is responsible for final recommendation to the President of a new or amended policy or for the proposed rescission of a policy. The Policy Secretariat conducts research, compiles drafts, and facilitates implementation of this standard on behalf of the President and Policy Sponsors.
