

Interim Request Process

*Students do not need to disclose a specific disability to receive accommodations. To determine if the student's request is disability related, Instructors may ask "Is your request related to a real or perceived disability?" or "Is this a one-time request or do you think you may need this type of support over an extended period of time?"

Instructors are strongly encouraged to build flexibility into courses so that requests for academic consideration are available to all students.

Counselling & Accessibility Services has introduced a new same date triage service to facilitate timely assessment of disability related requests for interim accommodations.
